First 8 of 20 model/exam results in report order. The complete table is linked on page 2. Technical errors are counted in attempts but are not model failures.

5 verified records. Compare models within the same exam and input condition.

What was evaluated

INPUT CONDITION

Conditions differ by exam and model lane; the detailed matrix retains each cell without merging unlike tasks.

EXAM AND REVISION

5 exam revisions; each fingerprint is retained in the detailed report

Limits on the claim

- This summary is accounting, not a leaderboard or a broad capability score.
- Low sample cells support counts only; no ranking is inferred.
- Lane errors, withheld and invalid attempts are retained outside the model-failure denominator.
- Per-exam conditions and quality axes remain in the detailed report.
